### Bio information

Chantal is a nurse by profession and in two of the best hospitals in Rwanda, Chuk Hospital for five (5) years and Muhima Hospital for three (3) years. She worked with 700 HIV positive pregnant and breastfeeding women to counsel them in protection methods from mother to child in HIV transmission. When her husband, who was a soldier, was demobilized, she became the sole bread winner, making their household income even more meager.

Coming from a very poor family, Chantal has worked hard to create jobs for people and to be a role model for others. She has taken many hospitality courses and sees Guilgal Creations as a way to break the circle of poverty for family and those around her proving that it is possible to come from deep poverty and have the life you believe you can.
